

30-MINUTE STORE WALK-THROUGH

E-commerce Audit

32 conversion checks across Shopify, WooCommerce, Wix and the big marketplaces (Amazon, eBay, Etsy). Walk through your store with this in hand. Each unchecked box is a leak worth plugging before you spend another euro on ads.

1. Storefront Fundamentals

- Homepage above-the-fold tells a visitor what you sell and for whom.
- Mobile load time is under 3 seconds (use PageSpeed Insights).
- Site navigation has fewer than 7 top-level items.
- Search bar is visible on every page and returns useful results.
- Trust signals visible: reviews, badges, return policy, contact.
- 404 and empty-search pages route the visitor somewhere useful.
- All images are compressed and lazy-loaded.
- Cookie / consent banner doesn't block conversion.

2. Product Page Conversion

- Hero image is high-resolution; multiple angles available.
- Title includes the most-searched keyword for that product.
- Bullet benefits sit above the fold, features below.
- Stock / shipping ETA visible before add-to-cart.
- Cross-sell / 'frequently bought with' present and relevant.
- Reviews shown with photo and rating distribution.
- Size / fit / spec guide is one click away.
- Add-to-cart button uses brand colour, not a default theme tint.

3. Cart & Checkout Flow

- Cart is reachable from every page (sticky icon).
- Free-shipping threshold is shown progressively in the cart.
- Guest checkout is available — no forced account creation.
- Payment options include local methods (Klarna, PayPal, Apple Pay, etc.).
- Address autocomplete is enabled.
- Checkout has fewer than 3 steps OR is a single page.
- Abandoned-cart email + SMS sequence is live.
- Post-purchase upsell or thank-you page is optimised, not default.

4. Marketplace Algorithm Signals

- Listing keywords are researched (Helium 10 / Marmalead / etc.).

- Main image meets marketplace policy (white background, fills frame).
- A+ / Enhanced content is used wherever supported.
- Backend search terms / tags are filled completely.
- Review count and rating beat your top 3 competitors.
- Inventory health (IPI / sell-through) is tracked weekly.
- Ad ACOS is below your contribution margin.
- Brand registry / Etsy Star Seller / Top-Rated status applied for.

Tally the unchecked boxes. More than 10 blanks usually means a 20–40% conversion lift is achievable in 90 days. Bring this audit to a free call at mirconsulting.com and we'll map a fix sequence to it.
